#### About the cover:

One of Eloc Farm's prides of the herd sporting a traditional Brown Swiss flower crown... that she kept shaking off! (You'll notice a funny outtake from this photoshoot in the banner above!)

#### MESSAGE FROM OUR PRESIDENT

Dear members,

Summer is fast approaching and, once again, Mother Nature has not been the nicest across Canada. Since we cannot control the weather, we need to keep focusing on what we can influence through our actions.

For the first time in the history of our Association, the Annual General Meeting was virtual and interactive; the AGM was a great success both in terms of the length of the event and the high number of participants. Seeing breeders from many different provinces

all coming together with the common goal of promoting the breed was a great source of motivation for many of us. As breeders, our duty is to promote our breed to make it shine both in the barn by having our cows perform, but also in the community by telling other breeders about the various advantages of the Brown Swiss breed. With proAction and the antibiotic reduction program, let's not forget how hardy our breed is and that it has an excellent immune system. By keeping somatic cell counts at a very low level, which allows breeders to deliver excellent

quality milk, the reduced use of antibiotics also lowers drug costs. Veterinary costs will also be lower as the Brown Swiss breed has fewer metabolic problems.

However, it is important to remember to pay special attention to the Health & Fertility traits when making our genetic choices to create the next generation of better performing and disease resistant animals.

DeD

Dave Rousseau

#### 2021 ANNUAL GENERAL MEETING BRIEFINGS

The Canadian Brown Swiss and Braunvieh Association

# **2021 VIRTUAL ANNUAL**GENERAL MEETING

Due to COVID-19 restrictions and pandemic situation the past year and a half, the Canadian Brown Swiss and Braunvieh Association held it first virtual Annual General Meeting (AGM). The virtual meeting was a first for the Association with simultaneous translation and the ability for members from all provinces to attend in the comforts of their own home. Thank you to the 2021 AGM sponsor SEMEX. The 2022 Annual General Meeting will be held in Ontario in person, if possible, with the date and location to be shared once confirmed.

President, Dave Rousseau, called the meeting to order, welcoming members from six provinces. A great advantage of a virtual meeting is attending from across Canada with no travel! The 2020 Annual Report is enclosed with this Newsletter addressing the agenda, reports and resolutions presented at the AGM.

Resolutions -This year we had one resolution carried over from 2019 (COVID postponement of AGM) and four from 2020, for a total of five resolutions presented. Full documentation of all five resolutions can be found in the Annual Report and a summary of voting results is noted below. Thank you to all members for your submission of resolutions and input and discussions at the AGM. All resolutions were carried except one, which will be further discussed by the Board of Directors. It will be brought back to the membership at next year's AGM, with added details for further discussion.

2019 Resolution #1 - Registration of Sires Marketed in Canada - carried

2020 Resolution #1 - Non-Publishable Data - carried

2020 Resolution #2 – Membership Free for First Year - carried

2020 Resolution #3 - New Members - carried

2020 Resolution #4 - Registration of Black Braunvieh - defeated / tabled

Financial Statements – Vice- President, Shirley Dortmans, presented the financial update for the 2020 fiscal year. The Association saw a 3% increase in revenues in 2020 from 2019 with slight increase in registrations and memberships. Expenses were slightly lower due to cancelled events, no annual meeting or national show. The financial statements are available in the Annual Report.

Production Achievement Awards for Class Leaders, All Time Class Leaders, Top Composite BCA Cow and Top BCA Herds were also recognized at the AGM. Award Certificates are included in the recipient's newsletter package. Congratulations to all!

#### **MASTER BREEDER**

At the AGM, special recognition was given to the 2019 Master Breeder recipient – Nor Bella, The McConnell Family.

Leaders in the breed for more than a generation, it was no surprise to see the McConnell family earn this prestigious honour. They are the 4th herd to be awarded this title since we started giving this beautiful Swiss Bell to the Master Breeders of the breed.

#### Highlights of the Nor Bella herd:

Rolling Herd Average: 10,505 kgs milk, 474 kgs fat and 362 kgs Protein with BCAs: 283-311-278.

#### Classification:

12 Excellent (3 - 95, 1 - 94, 1 - 93, 2 -92, 4 -91, 1 - 90), 29 VG and 4 - GP

Cow families that have left major marks on our herd are Dabble, Eve, Portrait and her sister Petals and Sarah. Nor Bella Supreme Dabble EX-8E 95 (13-7). All-Time top milk producer in Canada with 173,095 kgs of milk at 14 years old working on her 10th lactation. Hon-Mention Sr. Champion Royal Summer Fair and Reserve All-Canadian 2012. Six progeny, three of which classified VG as two-year-olds.

Nor Bella Paul Eve EX-3E 95 (8-6), Eve has produced over 96,000 kgs of milk in five lactations with #1 GEBV Fat (kg) and #2 GEBV Conformation (April 2021) She has also excelled at shows: 1st Jr 3 Yr. Old at World Dairy Expo 2015 and All-Canadian and All-American 2015.

Nor Bella Jetway Portrait EX-3E 96 (8-10) and her sister Nor Bella Dominate Petals EX-4E 95 (9-2) have left their mark with their offspring. Three progeny from Portrait have maximum scores in their last two rounds of classification and all are high production cows. Their first 95-point cow Nor Bella Blend Sarah EX-5E 95 (11-8) has also left a mark in their herd with quite a few offspring in their milking herd that have done well.

The McConnell Family were honoured to receive the Brown Swiss Master Breeder Award; Troy noted – "It is with great appreciation that we at Nor Bella Acres thank you for the honour and acknowledgement of the Master Breeder Award. We are humbled to be part of a breed that has and continues to excel forward with the Big Brown Cow."

The McConnell Family's Brown Swiss journey was published in the 2020 Fall Edition of the Newsletter and can be viewed on our website – www.browncow.ca

#### MEET YOUR 2021 - 2022 BOARD OF DIRECTORS

### PRESIDENT DAVE ROUSSEAU, VERCHERES, QC

Fermebrownheaven@gmail.com

My name is Dave Rousseau. My wife, Josée Charron, her father, Gilbert Charron, and I operate an 80-head Brown Swiss herd and we cultivate about 300 acres of land in Verchères in the Montérégie area in Quebec. We grow corn, soybeans and forages.

The herd was created 15 years ago and is operated under the prefix Brown Heaven. Josée and Dave's priorities remain to produce quality milk in large quantities with the best possible conformation, both for their genetic selection and their feeding strategy. The cows go to pasture in the summer to promote their longevity and their health. Participating in national and international shows is very important to promote the herd and sell genetics around the world.

VICE-PRESIDENT STEFAN GUBELMANN, WALTON, ON

gubelman@tcc.on.ca

Together with my wife Rita Gubelmann, our children Katrina 17, Courtney 16 and Simon 14 and my parents Ernst and Yolanda we operate Gubelmann Brown Swiss in Walton, Ontario, Canada. We milk 70 Brown Swiss cows and have about 100 youngstock.

Our goal is to breed cows that produce a lot of high component milk with good udders and legs and low SCC. We sell 30-40 high quality Brown Swiss from coast to coast in Canada per year. I feel that a well bred Brown Swiss can compete with any breed out there but we have to be selective on which bulls we use. On our farm we use bulls from all over the world. If you would like to talk about Brown Swiss feel free to contact me at <a href="mailto:gubelman@tcc.on.ca">gubelman@tcc.on.ca</a> or Rita and Stefan Gubelmann at Gubelmann Brown Swiss on facebook.

### DIRECTOR SHIRLEY DORTMANS, STRATHROY, ON

dortholmeholsteins@gmail.com

My name is Shirley Dortmans. My love of the swiss breed goes back to an opportunity to work at the Royal Winter Fair with a group of swiss from Manitoba. I was hooked and also that same show I met a handsome Holstein guy and 38 years later we are still farming in Strathroy area. Our herd is mostly Holsteins but I do have my beloved Swiss cows.

#### DIRECTOR IAN PEDEN, LEDUC, AB

swisstraditionbv@yahoo.ca

Swiss Tradition Braunvieh, We, Ian and Verena Peden, live in Leduc County, Alberta, 20 minutes South of the Edmonton International Airport. Verena was born in Switzerland and it was her wish to acquire Braunvieh, when we started to look at cattle. We bought our first two Original Braunvieh females in 1984 and another three animals over the following couple of years and were involved in importing new genetics during the 90's. Ever since our start in 1984, we have bred Original Purebreds exclusively, with the goal to maintain the dual purpose of the breed with emphasis on good structure and feet and also good temperament.

We have regularly attended shows to promote the breed. We showed mostly at the Northlands Farmfair Exhibition in Edmonton, which we attended every November since 1997. We both are committed to this breed. We do not just like the looks, but also the personality of these cows. Everyone visiting us is delighted with our herd and often refer to our farm as the "petting zoo". Over the many years, we have had the chance to export to the USA, Mexico, Brazil, Australia and China.

#### MEET YOUR 2021 - 2022 BOARD OF DIRECTORS

### DIRECTOR SYLVAIN BOULANGER, LAMBTON, QC

Sylvain.Boulanger@cshc.qc.ca

I have been passionate about genetics and shows since I was a teenager as I only discovered the Brown Swiss breed in the 90s. In 2016, Christine Dulac and I decided to dive into the Brown Swiss breed by purchasing three heifers from Milec Farm, Chantal Leclerc's farm. At the time, we only had 23 kgs of quota.

In 2018, we decided to sell our quota and to partner with our neighbour. We brought our entire herd to Cabouron Farm, Christian Bouffard and Colette Dumont's farm. I have been in charge of 600-head herd since then.

We have about 50 Brown Swiss among the 340 lactating cows. All Brown Swiss are owned by Du Cosmos or co-owned with Cabouron Farm.

Each year, we try to invest to diversify and improve the genetics of our herd. I still like to participate in shows with my Brown Swiss as well as the few Holsteins we have left.

Since our children did not want to follow in our footsteps in agriculture, we decided to share our passion for the beautiful brown cows with two of my former students – I have been teaching agriculture for 20 years.

We finished 5th at the WDE with a heifer that we had purchased at a local show with Francis Blanchette. In 2019, we made another purchase with Francis and Jonathan Joyal who was another former student and is also a Brown Swiss enthusiast; we bought a direct daughter from Wizard, full sister to the young sire Winrite.

I look forward to meeting you at the next National AGM.

# DIRECTOR FRED MATHYS, WAWANESA, MB Fmathys@live.ca

Ever since I was a child, I have worked with Brown Swiss animals; first in Switzerland, then in Manitoba, since 1981. Three years ago, after having retired for 12 years, I resumed showing Brown Swiss animals in partnership with two prominent breeders: Laurie & Donna Harp in Manitoba, and Dave & Josée in Quebec. My new prefix with my partner Donna Harp is: Tailormade.

I am passionate about the breed, enjoy helping producers with interest in Brown Swiss get started and want to see the breed continue to grow in Canada.

Feel free to contact any of your Directors if you have any comments, questions, inquiries, or feedback you'd like to provide.

#### **NEWS FROM ALBERTA**

## Greetings to everyone. From Alberta

Things are steadily changing and it seems there is never a happy medium. Our area experienced two summers of too wet, and now we are looking at burned up crops and low yields of hay through most of Alberta. It is no better in Saskatchewan and parts of other provinces, and B.C. is in terrible shape with all their fires.

We have been farming for 37 years and this one is equal to the drought years of 2002 and 2003. At least, we have enough pasture for our cows for now and may even have enough hay for Summer, if we get lucky with some second cut. If not, we may have to consider buying some silage instead. We lived through tough times before and will get through it again, and we are hopeful for all those affected by the drought, that things will work out.

One very positive thing this summer is the absence of mosquitoes. Gardening was so much more enjoyable, not having to slap around to kill them little beasts. However, one morning I was in disbelief to find my garden half eaten - the deer had been visiting. Potatoes, squash and tomatoes were safe, but the deer had chewed all the lettuce and spinach and trampled what they didn't eat. The kohlrabi and beets had no leaves left on top, the carrots were half pruned and the beans had just stalks left.

I went to work and cut pieces from a roll of snow fencing, shaping each piece with high tensil wire into domes, which I used to cover the rows of plants. That worked well to keep the deer away, but then I had to trap a couple of moles, which had moved in and after that came the rabbits for the smorgasboard. Having all under control now, the plants have recuperated and we have started eating fresh veggies --- just a lot later than usual.

Some years are a battle to be won.

The cows and calves are doing well and we are enjoying them. It is so relaxing to go out to the pasture and see the cows and calves content. They are having a pretty good summer with no mosquitoes bothering them. So, we always have to look at the positive.

In closing, we wish for everyone to get good rains. As they say, better late than never. This year sure makes one appreciate what we often take for granted.

Take care - stay healthy and safe.

Sincerely,

Verena Peden Secretary-Manager of the Alberta Braunvieh Association

#### **NEWS FROM ALBERTA**

#### ALBERTA 4-H CONGRATULATIONS TO LINDSEY!

Lindsey belongs to the Prince George North West 4-H Club. They had their show on August the 19th, 2021, as part of the BC Northern Exhibition.

Long time 4-Her, Lindsey Houchen, had come to visit us with her parents in May of 2020 and one of our calves, Swiss Tradition Daisy TWO 2H/B13214, immediately came over and wanted her attention.

This calf was particularly friendly with everyone and she stayed with Lindsey all the time, while we were out on pasture looking at the animals. Lindsey decided right then and there that this would become her 4-H project and they came to pick up the calf, which Lindsey wanted to be named Daisy, in the fall of 2020.

Well, her choice was a good one - Lindsey showed Daisy in the Prince George Agricultural Fair's 4-H Competition and got Grand Champion Heifer.

#### **NEWS FROM ONTARIO**

Welcome to our newest members in Ontario and best of luck with your new Brown Swiss animals. I am sure everyone is happy that life is somewhat returning to normal. But unfortunately not enough to have any fairs or farm visits, but we still need to keep in touch. It has been a stressful year with Covid restrictions, weather, and rising commodity prices. Dairy farmers always do their best job for their cows and their farm, but we still need to chat with fellow breeders because all days aren't perfect and often someone has had the same problem and we just have to ask.

One way to keep in touch is our Ontario Brown Swiss Club on Facebook, for upcoming events.

Plans for the fall will be our Annual General Meeting on Saturday November 27, 2021. Details will follow. Plus Ontario will be hosting the National AGM Spring 2022.

#### MESSAGE FROM REGISTRAR

#### Hello!

I hope you are all enjoying your summer. In the middle of all the busy summer activities at the farm, I trust you are able to take a break every now and then to just sit and enjoy.

This summer has been a bit different for me as I was able to go back to working part-time on the farm. I thoroughly enjoy being able to go to the barn and milk the cows again, get on the tractor once in a while, and even train a young horse under saddle.

Now that COVID-19 restrictions have relaxed a little more, I am also enjoying being back in the office instead of working from my home-office. I am now working three days per week for the Dairy Breeds at Holstein Canada. My colleague, Jerry Sumbler, has been working with me providing Herdbook and Customer Service to the Brown Swiss and Braunvieh members. If you have called in this past month, you may have also talked to Christopher Grice. Christopher is helping with Customer Service while Jerry is enjoying some summer vacation and he will continue further training this fall. Join me in welcoming Christopher to our team and thank you for your patience while he is in training.

It was good to see many of you at our virtual AGM this spring. It was a new experience for all of us, although I am sure you are getting used to online meetings by now. I was very impressed with how well it all went. Congratulations to Dave Rousseau for leading a very successful meeting and thank you to all the members who participated!

Currently, I am working together with the Board of Directors to review the bylaws. We are hoping to have everything finalized to bring back to you, the membership, for our next AGM so stay tuned!

Janine Eygenraam, Registrar

#### BROWN SWISS DAIRY SIGHT HILL FARM LTD.

Sight Hill Farm Ltd (herd prefix - Swiss Kine) is an exclusive Brown Swiss dairy located near Austin, Manitoba.

Clarence and Linda Doerksen bought the dairy in 1987. At that time, they milked 16 cows; a mix of Holsteins, Jerseys, and some cross breeds, two of which were part Brown Swiss. In 1990, while looking to buy some more cows, Clarence and Linda responded to an ad in the newspaper, by Fred Mathys, who had Brown Swiss cows for sale. After meeting Fred and his family at Swiss Dream

Association for 31 years. The herd averages 30 litres and 4.7% butterfat. There is one free stall barn and one straw pack barn with two milking robots. The farm consists of 400 acres in total, broken down into 230 acres of forage (alfalfa, grass, and corn) which supplies the feed for the cattle and the rest of the land is pasture for young stock.

The Doerksen's love the Brown Swiss for their quiet temperament and high milk components and have enjoyed getting to know the wonderful Brown Swiss breeders in their small Manitoba Association.

Farm, they decided to give these beautiful brown cows a try! As the farm grew and expanded, they kept going back to Swiss Dream for more animals. Over time, they have added Brown Swiss from other farms and provinces.

Over the years, the farm has been expanding and changing, with Clarence and Linda's son Kevin joining the farm in 2008, and, most recently, their son Nathan and daughter-in-law Melissa, along with their four daughters, joining the dairy last year.

They now milk 75 Brown Swiss cows on the farm and have been with the Canadian Brown Swiss

They are a family run farm that has always been centered on providing an adequate living and a good environment in which to raise a family. The dairy farming lifestyle has given them opportunities to instill lasting values in the lives of their children.

Now, as the farm continues to operate with the next generation, they desire the same things for their grandchildren. In mid-April, Holstein Canada rolled out its new multi-breed on-farm service platform, CONNEXXION. One of the hallmarks of this first phase of CONNEXXION is the set of new interactive reports that the Field Services team can now navigate with all Holstein Canada customers.

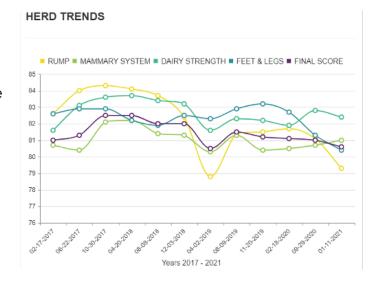

Through your Holstein Canada Web Account, available to any Holstein Canada customer regardless of the breed of the herd, you can now access these new reports. You can access your Web Account by going on the Holstein Canada website (www.holstein.ca) and clicking on Login or on Create Account to create your own Web Account, both options located in the upper right corner of your screen. All you need is your Holstein Canada customer number.

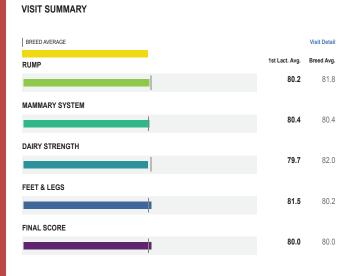

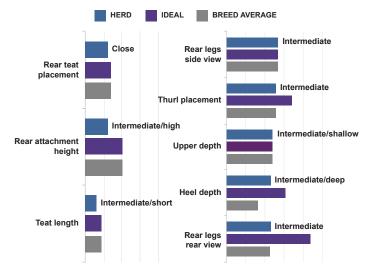

Once in your Web Account, you can access your new reports by clicking on Last Classification Results.

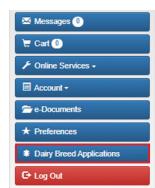

Detailed information for each section is available to allow you to clearly identify your herd results and where you can make improvements according to your own breeding goals.

A graph representing strengths and weaknesses allows you to quickly visualize what can be targeted in your herd or environment.

On your Web Account, you also have access to online registration forms. By clicking directly on Dairy Breed Applications, you will be able to select the desired breed when completing the registration request.

The bilingual Customer Service team is here to help you set up your web account or assistance with any other services.

Do not hesitate to contact them at 1 855 756-8300 ext 420 or by text message at 226 401-8305 or by email at customerservice@holstein.ca.

#### **GETTING STARTED IN DAIRYTRACE**

#### **P**DairyTrace

Dairy producers work everyday to ensure the health and welfare of their animals. But what happens when a disease outbreak, provincial emergency, or a natural disaster occurs that is beyond the control of a single producer?

This is the importance of DairyTrace. Livestock traceability can be defined as the ability to follow one animal or a group of animals from one point forward and one step back in the supply chain, throughout all stages of its life. That is from where the animal came from, to where the animal is going, also known as animal movement reporting. DairyTrace sends information to the national traceability system that encompasses all livestock and poultry species produced in Canada.

DairyTrace is an important program that can be used as part of an effective livestock traceability system. DairyTrace connects all three pillars of a livestock traceability system:

- Premises Identification;
- Animal Identification; and,
- Animal Movement Reporting.

DairyTrace offers a web portal, and mobile app, for reporting livestock traceability events. Specifically, requirements from the dairy industry's proAction livestock traceability module and Part XV of the Health of Animals Regulations. The Canadian Food Inspection Agency (CFIA) has appointed and provided Lactanet Canada (DairyTrace) with the duties, obligations and right of a Responsible Administrator (as the term is defined under the Health of Animals Regulations) for the purpose of administering a Traceability Program.

DairyTrace needs producers to help with building a robust livestock traceability database. The goal of the livestock traceability system is to provide timely, accurate and relevant information to reduce the impacts of a disease outbreak, food safety issue or natural disaster originating from and/or affecting livestock.

For producers outside of Quebec, activating your account online is quick, easy, and free, and soon will be required by proAction Livestock Traceability, as the national traceability database to report the requirements. Starting in September 2021, the traceability proAction module will be easily validated by generating a DairyTrace proAction Report by means of your DairyTrace account. If you own dairy cattle or simply have dairy animals under your care or control, dependant upon your provincial law, a DairyTrace account is essential for livestock traceability.

#### How to Register - It's easy, and free.

- Register online Launch the DairyTrace Portal
- Contact our customer service agents at 1-866-55-TRACE (1-866-558-7223)
- Email us at <a href="mailto:info@dairytrace.ca">info@dairytrace.ca</a>.

Janice, Mackayla, and Megan, our DairyTrace Customer Service staff (contracted from Holstein Canada), can provide information and technical assistance for all your DairyTrace needs.

The <u>Library</u> on DairyTrace.ca is available to further assist you with the DairyTrace program, online application, accessing and navigating your DairyTrace account, password trouble shooting, as well as provide addition resources and contacts in the event you have further questions.

Protection. Prosperity. Peace of Mind.

#### Visit DairyTrace.ca

Set-up an account and get started.

#### Déclaration en ligne

Effectuez votre déclaration à partir du portail TracéLaitier ou de votre appareil mobile.

#### **On-line Reporting**

Report from the DairyTrace portal or your mobile device.

#### **Options d'identification**

TracéLaitier offre trois différents jeux d'identifiants pour répondre aux exigences de double identification. De plus, découvrez

l'option vous permettant d'utiliser le nouvel identifiant BLANC à boucle unique de TracéLaitier.

#### **Tag Options**

DairyTrace offers three styles of dual tag sets for double tagging requirements. Also, find the option to use the

new DairyTrace WHITE single button RFID tag.

#### 1er septembre 2021

La consignation et la déclaration à TracéLaitier des activités suivantes à la ferme sont obligatoires:

- ▶ activation des identifiants/naissances
- ► arrivées et départs
- ▶ importations et exportations
- ► décès sur la ferme

#### September 1, 2021

On-farm recording and reporting to DairyTrace is mandatory:

- ► tag activation / births
- ► move-ins & move-outs
- ▶ imports & exports
- ▶ on-farm disposal

#### Nous sommes là pour vous aider

TracéLaitier vous appuie en répondant aux exigences de proAction® en matière d'identification et de traçabilité des animaux.

#### We're Here to Help

DairyTrace supports you in meeting proAction® livestock identification and traceability requirements.

# Coloured Breed Highlights - August 2021 -

#### **Brown Swiss Sires Maintain Their Breed Leading Positions**

This August release sees no change in breed leaders for LPI, Milk, Fat, Protein and Conformation among Brown Swiss sires. Vassli stays strong in the #1 position for LPI and Fat while also holding on at #2 Milk and #2 Protein. At #2 LPI, Huray still leads at #1 Protein and now occupies #2 position for Fat as well as #3 Milk. Lime Rock Seasidebloom keeps his lead at #1 Milk but is forced down a notch to #4 LPI (tied #5 Fat, #3 Protein) as Shiloh Brookings Cadence ET climbs to take the #3 LPI position (#9 Milk, tied #8 Protein). Assay (Anibal x Payssli) also climbs two steps on the LPI ladder to complete the Top 5 LPI list this round (#5 LPI, #4 for Milk, Fat and Protein). Also worth mentioning is the gain of 141 LPI points experienced by MIR Absolute (Anibal x Huray) after achieving proven status last April, which catapults him from #14 to #6 LPI (#7 Fat, #6 Protein). For Conformation, La Rainbow Bfly Dynamite ETV (Cadence x Durham) gains one point this round to +13 and holds on to his title as breed leader. Joining the group of bulls tied at #4 Conformation is the sole newly proven sire this round, namely the Swiss-born Herrenhof BS Norwin Phil, who makes his debut at #55 LPI (dam is Herrenhof BS Blooming Petunia).

For the second consecutive round, the "Gubelman" prefix takes all of the top five positions on the GLPI list with some minor reranking. To start, Gubelman Juhus Crystal regains her #1 position for both GLPI and Fat while staying firm at #2 Protein. Gubelman Biver Katniss-ET is therefore forced back to #2 GLPI position (tied #7 Conformation, daughter of Gubelman Bookings Katie). She is followed by the pair of Katie's granddaughters, namely Gubelman Biver Kendra at #3 GLPI and Gubelman Cadence Kasandra in #4 GLPI position. Climbing to take #5 GLPI this August is Gubelman Cadence Dilana (#5 Milk, tied #5 Fat, #1 Protein), who is a maternal sister to Gubelman Biver Diana (#7 GLPI, tied #1 Fat, dam is Gubelman Huray Delinda). Sandwiched between Dilana and Diana is the highest newly indexed cow this round, namely Eloc Glarus Rolo at #6 GLPI, who is a daughter of Eloc Zaristo Roulette by the German sire, Glarus. The second highest newly indexed cow also achieves Top 10 status as Shady Lane Swiss H Aplus (Hilton x Motown) arrives in #10 GLPI position. Two other newly indexed cows make their mark this August as Schweizer Get Lucky Roussette (Get Lucky x Dixon) becomes the new breed leader for Milk and Shady Lane Swiss D Popcorn (Dynamite x Biver) does the same as the new #1 Conformation with +15.
