Message from Our President

Another summer has flown by, bringing with it the highs and lows which are often associated with the whims of Mother Nature and complete opposites from one region of the country to another. A hotter summer than in years past reminds us of Brown Swiss's ability to adapt to the heat.

During the summer, I had the chance to travel to Peru, more precisely to the Cuzco region, to judge a Brown Swiss Competition. In a country where the Brown Swiss breed reins supreme, with a population of over a million, such a trip to the mountains quickly puts into perspective its great capacity to adapt and perform in rugged breeding environments. It also makes us realize that it is vital for our breed to remain unique and retain its hardiness, strength and chest width. Without this, it could not survive the high altitudes of Peru.

Over the past few weeks, we have been working with the Breed Improvement Committee to review the classification grid. Sharing our opinion as part of a committee made up of people who are passionate about the breed is certainly a most rewarding experience. I would like to thank Troy McConnell, Sandy Cole, Stefan Gubelmann and Isabelle Dupré for taking the time to share their vision. We will surely present the fruits of our labours at the AGM.

We are also very pleased to be able to add two Braunvieh classes to our All-Canadian 4-H competition. The next generation remains one of our most precious assets, and it is important to encourage them to represent our breed well. A number of animals have been shown at various youth exhibitions across Canada, giving us excellent visibility and making us very proud.

Once again at World Dairy Expo, Canadian animals did very well with five class winners, including four in the milking cow category. Iroquois Acres Jongleur Cali and her daughter Iroquois Total Candy, both owned by the Pacheco family but housed at Lookout Farm, won their respective classes and were crowned Grand Champion and Reserve Grand Champion. Brown Heaven Biver Frenchkiss, owned by Brown Heaven Farm, also won in her class, in addition to taking the Best Producer Award for the third year running. Groves View Luke Tabby, who had previously won top honours at Hanover, also took the prize in her respective class. Finally, Brown Heaven Farm was awarded Top Junior Sire for a second year with Brown Heaven R Famous, and won the first class of the day with Brown Heaven Design Freida.

We are delighted to announce the return of in-person Annual General Meetings. We look forward to seeing you in Calgary on January 26, 2024. As well as being able to meet up at last, we will be in the heart of the region where the majority of our Braunvieh breeders are based. And hockey fans will be happy to know that the Flames are playing on the evenings of January 25 and 27. Finally, the town of Banff, with its breathtaking scenery, is less than an hour and a half away by car.

Dave Rousseau

2024 ANNUAL GENERAL MEETING & BANQUET

January 26, 2024

AGM start time: 9:30 a.m. | Arrival on Jan 25

HOTEL CLIQUE CALGARY AIRPORT

To book your hotel room for special rate at \$119 per night from Jan 24 – 28, call the hotel
frontdesk at 403-460-9588 and book under the group block **Canadian BrownSwiss & Braunvieh**

FREE AIRPORT SHUTTLE TO HOTEL

Note: The hotel is just minutes from Calgary Airport, close to Cross Iron Mills Shopping Centre and Alta Genetics.

Make it a vacation by taking in Banff or Lake Louise

RSVP required by January 5, 2024:

☐ Attending AGM ☐ Attending Awards Banquet (Jan 26 evening)

- Prime Rib dinner: \$125.00 / person (+2 drink tickets)
- Silent auction and guest speakers

Silent auction items are graciously appreciated. Call Dana Vos at 306-409-0219

Social: 5:30 p.m. | Dinner: 6:30 p.m.

Please RSVP and pre-register by Jan. 5, 2024. Email brownswiss@holstein.ca
or call 1-855-756-8300 ext. 277 to charge your account or pay by credit card

Greetings to all,

Since last Friday, October 20th, we were busy getting the farm winter-ready, because the weatherman had announced snow storm warnings for Monday - that meant moving cows' home from pastures, draining water troughs and more. The snow came as announced and brought with it very cold temperatures (down to minus 15 Celsius during the nights). Quite the switch from 25 above a week ago... Luckily, we had weaned all our calves during the good weather and they are doing fine. We have, for several years, used the Quiet Wean System, which has reduced a lot of stress for the calves, cows and us. We put flaps into the calves' noses, so that they are unable to suck and then leave them with their moms for 4-5 days. This allows enough time for them to get used to not having milk and the moms get used to not being sucked. After that time, we separate them and there is very little bawling going on.

We are now training some of the calves to lead for Farmfair International at Northlands once again. It will be exciting,

since this will be our first year of having Braunvieh judged against its own kind. Thanks to a few new and enthusiastic breeders, we have enough animals together to make our own show and the same goes for the Galloways and the Blonde d'Aquitaines, although we all will still be under the umbrella of "All Other Breeds". Other than that, not much else is new. We had another extremely dry spring and early summer and we wish for everyone that next year will be better. Please plan to attend the AGM in Calgary in January of 2024. Dana Vos has spent an enormous amount of time and work organizing for this upcoming event and we are looking forward to meet you there.

In the meantime, we wish you a wonderful holiday season with family and friends. Take care, Merry Christmas and Happy New Year.

Verena Peden
Secretary-Manager,
Alberta Braunvieh Association

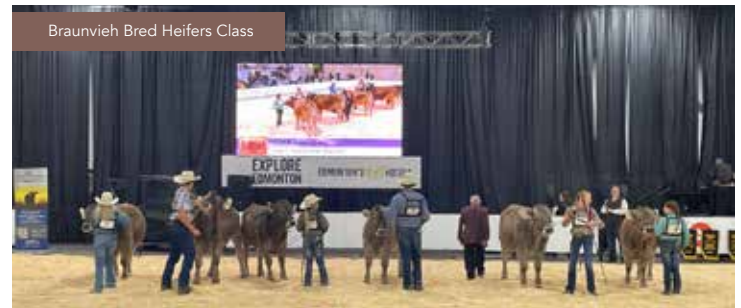

Farmfair International 2023

There were five breeders who brought animals to Farmfair International 2023 in Edmonton, Alberta November 8-11, 2023: River Sand Braunvieh, Swiss Tradition Braunvieh, SMJ Braunvieh, Tin Forest Farm and Vos Braunvieh.

It was the first time for Braunvieh Cattle for their own show under the umbrella of the "All Other Breeds Show". It was a very early morning at 4:00 A.M. on November 8, 2023 when everyone was busy getting ready for the 9:00A.M. Show. With the help of eight kids (ages 8-15), plus parents

and close friends helping the exhibitors with all the many tasks and work for the show, it was a huge success! The days were long and hard but well worth it.

Swiss Tradition Braunvieh won the Braunvieh Overall Female with "Swiss Tradition Delux" and her bull calf "Swiss Tradition Lexus". They will compete in the Farmfair International Supreme Show on Saturday, November 11, 2023. Full Results are on the Farmfair International webpage.

News from Saskatchewan

Hello Everyone!

I am thrilled to be a part of the Canadian Brown Swiss & Braunvieh Association - Saskatchewan as part of the Board of Directors. Although there are only a couple of us breeders in Saskatchewan, we hope to see the membership increase.

Vos Braunvieh is in Maple Creek, Saskatchewan. This is my family and between my husband, Bryce Jans and our five children we raise Original Purebred Braunvieh. Be sure to check out our ad in this Bell. We have enjoyed going to some cattle shows with our children and cattle this past year. Starting with Farmfair in Edmonton, Alberta along with Ian & Verena Peden of Swiss Tradition, and then again at Penshow in Medicine Hat, Alberta. The kids and their 4-H animals also went to the local show in Maple Creek - Cowtown Classic, and then went on an adventure to the Cody Sibbald Classic at Beechy, Saskatchewan. These shows are for youth and showing cattle. They also had their 4-H Achievement and their District Regional 4-H Fair in June. Jordan (age 25) showed a Swiss Tradition bull, Taylor (age 15) showed his heifer, Riley (age 13) showed his heifer and a steer, Bobbie (age 9) showed her heifer and a crossbred steer, and Harlie (age 8) showed her heifer. Check out some of their pictures.

Whitesand Creek Farm is in East-Central Saskatchewan. Murray and Angela Prokopetz also have Original Purebred Braunvieh and have cattle available. They look forward to your visit. I included a picture of their calf WSC 3L LUBA. She is very photogenic.

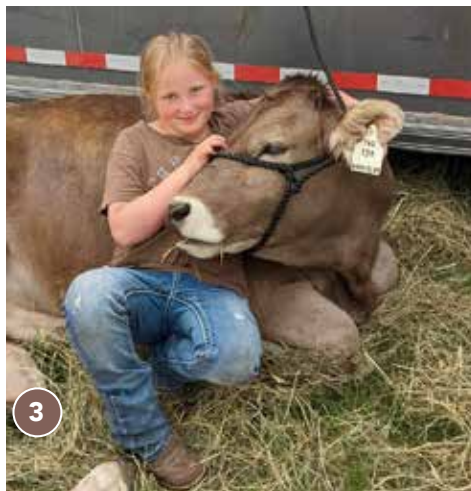

Whitesand Creek Farm heifer: LUBA

The Saskatchewan and Alberta Associations are hosting the Annual General Meeting this coming January 2024 in Calgary, Alberta. There will be Guest Speakers, Silent Auction and Prime Rib Beef Dinner on January 26 in the evening after the AGM. Bring your spouse and family and enjoy a visit. There is an ad in the Bell with the deadline and information. We look forward to seeing you there.

Proud to be a part of the Canadian Brown Swiss and Braunvieh in Saskatchewan and Canada.

Until next time, Dana Vos, Saskatchewan Director

1. Riley Jans and his steer Uncle Kracker at the Cody Sibbald Legacy Classic at Beechy, Saskatchewan. 2. Jordan Vos showing Swiss Tradition Jax at Penshow in Medicine Hat Alberta. 3. Harlie Jans and Karalina cuddling by the trailer at the show. 4. Taylor Jans showing Kally at Penshow, Medicine Hat, Alberta. 5. Bobbie Jans and Katina relaxing at Farmfair.

News from Manitoba

Greetings from Manitoba!

This has been a quiet year for our Manitoba Brown Swiss Association, but, as dairy farmers, we continue to be busy with the day-to-day activities involved in producing milk and caring for our cows. With the Thanksgiving Season just behind us, we have been reminded of how much we have to be thankful for. We never want to take these things for granted: the beauty of the changing seasons, the harvest, our families, and our farms. This article is made up of photos and reports from three individual farms, and each submission reflects things that cause us to be grateful.

Best wishes to everyone! We hope your winter goes well, and that you have a wonderful Christmas!

Photos provided by Crikside Farms, Woodmore, MB

A Summer of Gratitude

Part 1: Paige Dueck's Perspective

Today I am grain cart operator. All around are beautiful fall colours in the shining sun. My father-in-law, Armin, is in the combine full of corn. My husband, Marcus, is in the grain truck, my mother-in-law, Antje, is at home with both our daughters, Sutton, 3.5 and Brielle, 7 months. At the farm yard, in the barn, is an exceptional farm hand, Paige. Yes, her name is also Paige, we call her P2.

Just over three years ago we installed a tie stall robot to milk our 48 Brown Swiss cows. Sutton was just seven months old. We spent the next two years settling into the robot and life as new parents in a pandemic. Coming out of those two years, my mental status was a bit shaky, and I felt as though I could never get out of the barn let alone off the yard.

When we were pregnant with Brielle, I felt we needed to hire someone to help in the barn. We found a wonderful teenager that lives just down the road and would come and do daily barn chores during the week.

She has been a saving grace for me this summer. With her covering my basic chores, I had the freedom to enjoy time with our girls. I have the time to teach my older daughter things in the barn, not just power through the work. I am able to participate in fieldwork, which has in turn given my mother-in-law time with her two granddaughters instead of covering for my absence in the field. I have much to be thankful for this summer, especially family, good health and good farm help.

A Year of Adventure

Part 2: Paige Penner's Perspective

Four Oak Farms is a tie stall robot dairy located in Kleefeld, SE Manitoba.

In February of 2022 I heard of a job opportunity at Four Oak. I had worked at dairy farms before, so I knew a little bit about what it would be like. This would be my first real job where I wouldn't be working with family and it looked a little daunting.

I thought about it and decided I'd give it a shot. In March 2022 I started my first few shifts, learning to run the robot was a little scary at first. I worked to learn which buttons do what and what the alarms mean, but after a bit I began to feel comfortable with it. I have had a lot of fun learning the way the farm works, and getting to know all the people involved.

The days are filled with chores and all sorts of fun times. I enjoy playing with Sutton and Brielle, riding Paige's horses, hanging out at the farmhouse with family, or riding along in the tractor. I am grateful for the people and all the wonderful adventures and things I have learned over the last year and a half.

Four Oak Farms

Sight Hill Farm

News from Ontario

The Ontario Board of Directors, Chairman Joel Voth, Vice Chairman Dale Philips, Simon Signer, Stefan Gubelmann, Shirley Dortmans, Troy McConnell and Bill Los send greetings to Brown Swiss breeders across Canada. We hope everyone has had a prosperous summer.

Brent Cain hosted our picnic this summer on August 23rd in Paris Ontario. Brooke Cain was our Brown Swiss Miss this year. We thank Brooke for attending our shows at Hanover and Kincardine this summer. Our 4-H members put on an excellent show with their calves at these two shows.

Production Awards were presented at our Annual General Meeting in November.

We would like to congratulate our herds with the Highest BCA:

- Losland Dairy with an Average BCA of 325.7
- Norbella Acres Inc. with an Average BCA of 310
- Gubelmann Brown Swiss Ltd. with an Average BCA of 308.3

The top three Most Improved Herds are:

- Losland Dairy with an improvement of 16.4 points
- Charles Martin with an improvement of 16 points
- Spring Rose with an improvement of 13 points

Congratulations to all of our breeders who continue to work to improve the Brown Swiss breed.

Best wishes to everyone
for a happy and healthy
*holiday season
and new year*

—Tracy Reid

Brown Swiss Picnic

We had a great time at this year's Brown Swiss picnic, hosted by Brent Cain and his family at their 4th generation dairy farm (Rovelon Farm). They bought their first Brown Swiss two years ago and since then they have grown to four cows, two heifers and more on the way! What drew them to the breed? Brent likes the breed's characteristics such as docility, longevity, and milk components. He likes what he sees in them and how the breed has worked very hard to modernize the Brown Swiss cow. Brent has also enjoyed exploring the breed with his children as they have grown, one of them becoming Ontario's 2023's Brown Swiss Miss.

Brooke Cain is this year's Ontario Brown Swiss Miss and we had the pleasure of meeting her at the picnic. She showed us around the farm and we got to pick her brain a bit on what drew her to the Brown Swiss breed. Two years ago, Brooke was looking to branch out of showing Holsteins for her 4-H project and decided to buy a Brown Swiss calf with her father. She has since come to love the breed more than Holsteins as they are very easy going and friendly, finding them easier to work with and train when preparing her 4-H calf for shows. She said yes to becoming the 2023 Ontario Swiss Miss because she was new to the breed and wanted to explore it some more, giving her the opportunity to interact with more people in the Brown Swiss community. This summer Brooke has attended the Hanover and Kincardine show helping hand out ribbons.

All in all, it was a great afternoon spent with good company! We always enjoy getting together with you to discuss the breed and share stories.

Until the next picnic!

- Isabelle Passaretti

News from Quebec

Hello everyone,

As I write these lines, winter is already upon us. The summer of 2023 was particularly rainy, some regions more so than others. Harvesting was a headache at times, but being a farmer means juggling with the weather.

The Brown Swiss Cup took place last August. A total of 67 cows from 13 herds were presented. Mr Jake Hushon was the judge for this edition. He provided informative feedback and had good conversations with breeders. I would like to take this opportunity to thank him for accepting to be our judge this year. The results were presented as usual at our AGM on November 29.

The Annual General Meeting changed its format slightly. There was still a brunch, followed by the production awards ceremony and the AGM, but afterwards, participants were invited to a wine and cheese reception to continue the day's discussions. Once again, our silent auction was a great success.

As voted in December 2022, the number of territories represented has been reduced from 7 to 6. There are now 2 Directors per reconfigured region.

We're also still struggling with female registration problems, due to certain bull importers not registering males in Canada. We're working with them to remedy this situation.

With the fat-to-protein ratio once again revised downwards in August, it's really important to choose our bulls carefully for future crossbreeding. Serge Bilodeau, our Technical Advisor, can help you make the right choices when it comes to placing your orders. Don't hesitate to contact him.

For those who didn't know, the Brown Swiss 2024 Picnic will be held in the beautiful Trois-Rivières region. The M.C.F. Leclerc inc. farm will be pleased to welcome us on July 27, 2024. Thank you for accepting.

In closing, I wish you a fine winter, and may your Brown Swiss continue to live up to your expectations.

Buying and Selling Cattle

The Brown Swiss market is actually good, when animals are available! For instance, in 2022, more than 340 Brown Swiss heads were sold, while in 2023, with transactions for 2 complete herds, more than 300 Brown Swiss (registered or not) found new takers in Quebec. Let's face it, buying and selling cattle is not what it used to be. In the past, everything was done in person and sealed with a handshake! Today, things are a little more complex. We have to compete, work with social networks and remind ourselves that no transaction is final until the animals are loaded onto the trailer!

In recent years, with the advent of computers and milking robots, there has been less and less need for the extras (registration, official milk recording, classification, X generation EX/TB). What buyers want is a functional cow that will calve year after year and produce good components to make their quota.

Today, being a cattle dealer is quite demanding, as you have to be both a psychologist (lending an ear to customers who sell for personal reasons) and a banker (consumer practices have greatly changed with the use of cards, and it's much the same for livestock). To say nothing

of after-sales service where professionalism goes hand in hand, as all too often, we must be mediators between two breeders, or some animals have "hidden" defects, so it's up to us to handle those situations.

Leaving an excellent cow with a pedigree on a farm that doesn't do milk recording, classification or even registration is certainly the hardest part of my job. I am aware that it is a loss for the gene pool, but on the other hand, we are increasing the BS population in Quebec. Admittedly, this cow will not have an impact on the breed via her offspring, but she will have an impact on the population itself: through her performance, she may encourage the owner to buy other BS and indirectly increase the number of Brown Swiss inseminations, etc.

Furthermore, it is rewarding to see that some of the animals sold stand out in their new herd!

– Alain Préfontaine

Ferme Redam Inc.

Saint-Prime, Lac-Saint-Jean, Quebec

In this issue, we travel to “Blueberry Country” in Saint-Prime, Lac-Saint-Jean, Quebec to visit Ferme Redam Inc. This family business is now in its 4th generation of Delisles. Edgar Delisle (grandfather) acquired the 20-hectare farm with 15 cows around 1925. The farm was transferred to Réal in 1963: a barn was then built, and land and Brown Swiss cows were purchased. Twenty years later, it was time for the two brothers, Dany and Marc, to take charge of the farm’s management and growth.

In 2020, the son, Samuel, became majority shareholder of the farm with 75% of the shares, which coincided with major changes: expansion and refurbishment of the barn to include a GEA milking robot under organic management.

Today, the Redam herd comprises over 140 animals (90% BS), including 80 milking cows with a quota of 72 kg. Right from the start, the farm focused on the qualities of Brown Swiss: a calm disposition, excellent feet and legs, and good components. And now, with robotized milking and organic management, they can add to the list teat placement, locomotion and heat resistance (because animals go outside during the summer).

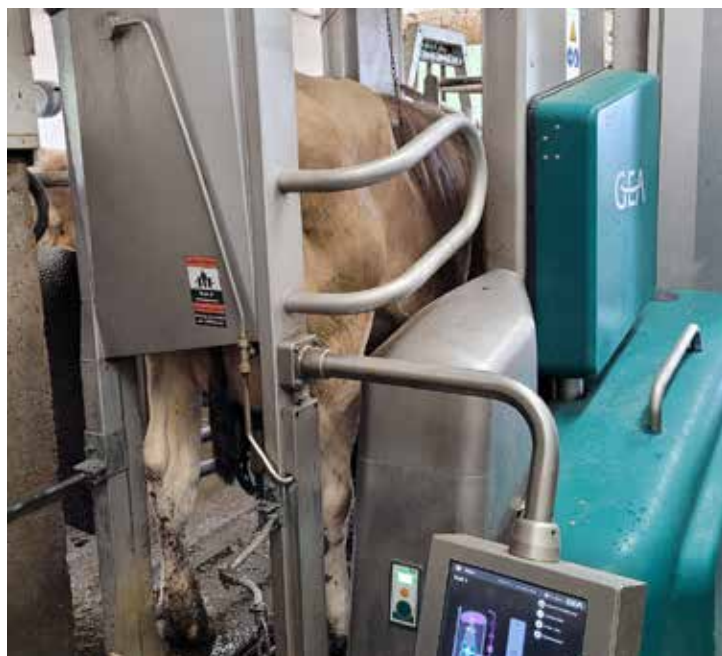

Over the years, the farm has used the various tools offered by industry partners to improve production (milk recording), genetics (classification/embryos) and herd comfort, while taking into account the constraints of the business. For example, cows are fed on cereals produced on the farm. Fall soybeans and rye are roasted on the farm to reduce degradability, since the Delisles don’t grow organic corn. Today, the farm has over 1,200 acres of organic crops and grows buckwheat, barley and oats on a rotational basis.

Young calves are kept in a bedded pen with milking cows for the first 3 months of their lives. In terms of sire selection, the farm chooses complete bulls in order to sire strong cows with good mammary systems, which in turn results in good longevity in the herd.

Since last spring, a second milking robot has been installed, the existing barn has been expanded and quota is purchased on an ongoing basis. The herd’s current average of 8,400 kg at 4.3% fat and 3.6% protein is rising steadily. The farm is constantly evolving because its owners are learning every day!

SWISS TRADITION *Braunvieh*

Raising Original Braunvieh since 1984

Message From the Registrar

I wanted to start by saying thank you for your patience and support as I learn more about the Brown Swiss/Braunvieh breed, it has been a pleasure getting to know and work with you all!

I want to give a quick update from the Registrar's office to let you know how it's going so far this year...

As of the end of September, we have had 3 new members, 906 registrations and 775 classifications. Registrations and classifications are slightly up compared to the same period in 2022 and there seems to be a lot of momentum with a total of 16 new members this year!

Looking forward to seeing what the new year has in store for the Brown Swiss/Braunvieh community.

If you have any questions or concerns please do not hesitate to contact me by email at ipassaretti@holstein.ca or by phone 1(855) 756-8300 ext. 223. If I happen to be away, Golda-Anne Nabila will be more than happy to assist you (gnabila@holstein.ca/ext.249).

Wishing you and your family Happy Holidays and all the best in 2024.

– Isabelle Passaretti

2023 ALL-CANADIAN 4-H CONTEST

Deadline January 12, 2024

The All-Canadian 4-H Contest was established to recognize the outstanding animals shown at 4-H shows across the country for both Brown Swiss and Braunvieh animals.

Classes for the 2023 4-H Contest include:

Brown Swiss Junior Class:

1. Junior Calf – Mar 1/23 – May 31/23
2. Intermediate Calf – Dec 1/22 – Feb 28/23

Brown Swiss Senior Class:

3. Senior Calf – Sept 1/22 – Nov 30/22
4. Summer Yearling – June 1/22 – Aug 31/22
5. Junior Yearling – Mar 1/22 – May 31/22

Braunvieh Heifer Class:

1. Born in 2022 & shown Sept 1/22 – Aug 1/23

Braunvieh Steer Class:

2. Born in 2022 & shown Sept 1/22 – Aug 1/23

Eligibility

To be eligible for entry in the All-Canadian 4-H Contest the animals must meet one of the following qualifications:

1. Place 1st, 2nd, 3rd, 4th, 5th or 6th at an accredited 4-H show in Canada
2. Place 1st, 2nd, 3rd or 4th at any other show in North America.

Pictures

- It shall be the responsibility of the exhibitor to secure and supply the photos of animals being entered in the All-Canadian Contest.
- The photos must be 5 x 7 unretouched black and white or colour glossy prints.
- Pictures must be made during the current year and show the animal in the same stage of growth as when she qualified in the show ring.
- The judges will have the authority to remove pictures from the contest if picture quality standards have not been met.

Entries

- Entries must include one picture and a completed entry form.
- A confirmation email will be sent for each entry.
- All entries must be received by January 12, 2024. There are no exceptions.
- Entry fees: all fees for the 2023 All-Canadian 4-H contest have been waived.

Judging of the Contest

- Entries will be judged by judges selected by the Executive, who will select the winner by placing them 1, 2, 3 (with 7 pts for 1st, 3 pts for 2nd, 1 pt for 3rd).
- Once the classes have been placed, the points will be tabulated to determine the winner. (Judges who have animals in a class will have to abstain from those classes).

Presentation of the award will be made at the 2024 CBSBA Annual Meeting.

Entry forms can be obtained from the Canadian Brown Swiss and Braunvieh Association, 20 Corporate Place, Brantford, Ontario, N3T 5R4, Phone: 519-756-4720, email: brownswiss@holstein.ca

Traceability Event Reporting – Requirements & Best Practices

Why Reporting is Beneficial

Reporting events regularly and within the timeframes required by proAction® is beneficial to your farm and to the dairy industry as a whole. Here's why:

- It helps you meet proAction® reporting requirements and to have a successful audit.
- It helps keep your herd information up to date in your DairyTrace account, which means a shorter, accurate list of animals on-farm.
- Reporting is easier from an accurate herd inventory list and helps you quickly verify if you have forgotten to report an event.
- Provides a back-up of records you keep on-farm in the event they are lost or destroyed.
- Up to date traceability records help ensure effective and rapid traceback in an animal health emergency, protecting farms and the dairy industry.

Timeframes for Reporting

proAction® requires that the following events must be reported **within 7 days** to DairyTrace, for male and female animals:

- Arrival on farm
- Move-in to an affiliate premise
- Tag replacement (previous tag number is not known)
- Tag cross reference (previous tag number is known)
- Tag retirement (on-farm disposal)
- Export and Import

Animals born on farm must be tagged within 7 days of birth or before leaving the farm, whichever comes first.

Births must be reported to DairyTrace within 45 days or before leaving the farm of origin, whichever comes first.

Tagging of stillborn calves is not required if they are disposed of on-farm. Tagging and reporting the tag activation is required, however, if they are leaving the farm to go to a rendering

Here's what Chris McLaren, Larenwood Farm says about keeping his records up to date:

"I think the most important thing with traceability is that when you do something, that you enter it. Don't leave yourself a list of things that you did all week and then try and remember what you did and when you did it."

facility, which will subsequently report the tag retirement. For either scenario, the event needs to be recorded on-farm. It is also highly recommended to report a move-out when a renderer or deadstock company picks up an animal carcass.

What's Your Best Option?

There are several options for reporting traceability events, so you can choose the one that works best for you.

DairyTrace has revamped the on-line portal and mobile app, with new features that make reporting easier. One important update is that the DairyTrace mobile app now links to your address book in the DairyTrace portal. You can also now order tags directly through your DairyTrace account, and as always, shipping is free for all DairyTrace tag orders.

There are also software solutions that are fully automated to capture, record, and report right to DairyTrace. If you are using a third-party software for reporting, be sure to check your DairyTrace account on a regular basis to verify that your events are being reported correctly.

For producers needing non-electronic options for reporting, paper forms can be downloaded from the DairyTrace website dairytrace.ca/animal-movement or ordered from Customer Services. Paper forms can be submitted by mail, fax, or email. Please see contact information at the end of this article.

For registered animals, other industry partners, including breed associations, can receive, send and report event information to DairyTrace on your behalf. When you register an animal through your national breed association, or its identification number changes and needs to be cross referenced, Holstein Canada will automatically transfer the associated traceability event(s) to DairyTrace on your behalf. Just remember, the birth must be registered before 45 days to comply with proAction® reporting requirements or before the animal leaves the farm of origin, whichever occurs first.

View the Reporting Methods Guide from the DairyTrace website or call Customer Service to obtain a copy.

Get More Out of Traceability

Here are some best practices to help you get more out of traceability:

1. Reporting move-outs is highly recommended. Why?

- Keeps your herd inventory list up to date, rather than relying on the next premises who may not report the move-in
- Reported move-outs create documented events when your animals were intermingled with others off-farm
- Helps ensure full traceability of the animal through the dairy system

2. Entering the sex and breed of animals

There are now more breed options to select from in DairyTrace. Entering this information provides complete data about your animal if needed in the future and is easy to complete at time of tag activation. Including the sex and breed of calves at birth also makes it easier to sort and manage your herd list. Additionally, having more complete data about your animals may open the door for value-added opportunities for farmers in the future.

Keeping traceability records up to date helps you stay on track and is beneficial for all dairy farmers. Jennifer Peart, Erieview Farms Ltd. says:

“I now ear tag the calves on the day they're born and record the information immediately so I'm not going back and doing it later and everything is up to date, and it feels good to stay on track.”

We've reached a milestone!

Since October 2020, the DairyTrace customer services team has sold over 500,000 white single button RFID tags. Thank you to all producers who have made the transition to single white button tags to identify all calves born on dairy farms. You are helping to ensure an effective national and globally trusted traceability system, building public trust, and strengthening Canada's export status.

Have Questions?

Dairy farmers can contact DairyTrace Customer Services at 1-866-55-TRACE (1-866-558-7223) or info@DairyTrace.ca.

Inbreeding Update - August 2023 -

Each year, based on official animal registration and pedigree information within its database, Lactanet Canada computes current inbreeding statistics within the Canadian cow population of each dairy breed.

In this way, the average level of inbreeding for animals born in the most recent complete calendar year as well as trends in the level of inbreeding over time can easily be monitored.

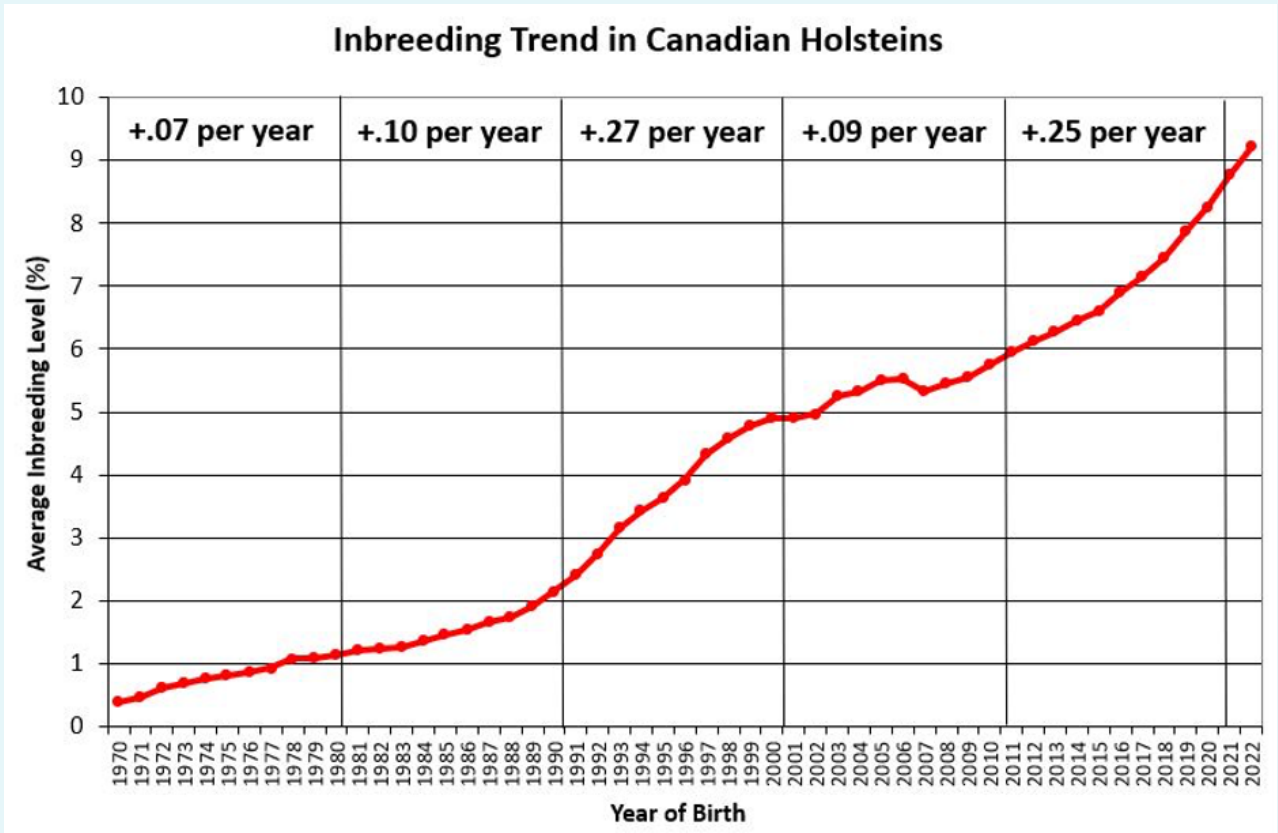

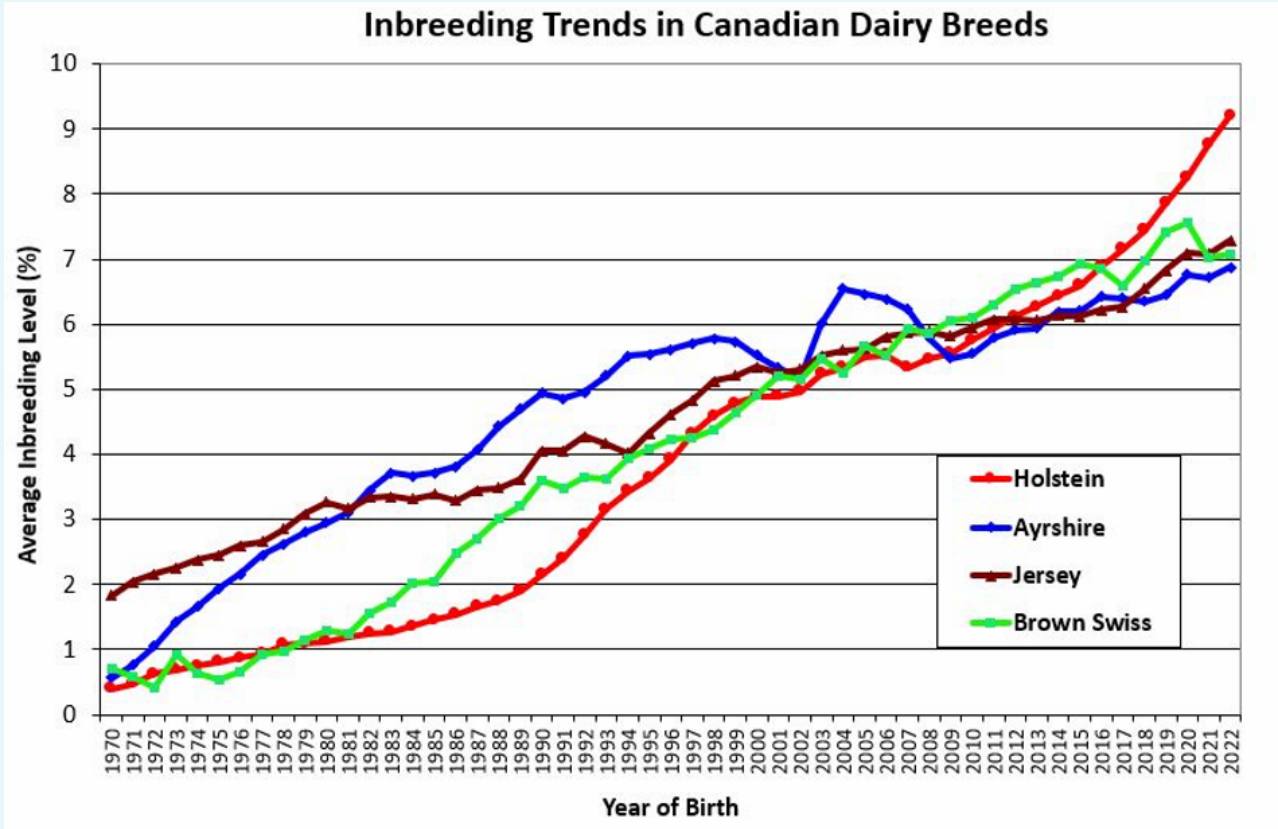

The following table is based on females born in Canada since 1970 up to and including registered heifers born in 2022.

Current Inbreeding Level and Change in Average Inbreeding by Breed						
Breed	Average % Inbreeding for 2022	Average Annual Increase in Average Inbreeding Percentage by Time Period				
		1970-1980	1980-1990	1990-2000	2000-2010	2010-2020
Ayrshire	6.88	.24	.20	.06	.00	.12
Brown Swiss	7.09	.06	.23	.13	.12	.15
Canadienne	10.58	.16	.22	.30	.19	.09
Guernsey	7.23	.07	.12	.14	.20	.10
Holstein	9.21	.07	.10	.27	.09	.25
Jersey	7.29	.14	.08	.13	.06	.11
Milking Shorthorn	2.39	.01	.02	.25	-.13	.07

Among the four major dairy breeds in Canada, the average inbreeding level for heifers born in 2022 is highest for Holstein at 9.21%, followed by Jersey (7.29%), Brown Swiss (7.09%) and Ayrshire (6.88%). In terms of controlling the rate of increase in inbreeding for females born since 2010, the Ayrshire and Jersey breeds are doing the best among these four breeds, averaging +.12% and +.11% per year, respectively, compared to rates of increase of +.15% for Brown Swiss and +.25% per year for Holstein.

Among the breeds with the smallest populations in Canada, Canadienne continues to have the highest average inbreeding, now at 10.58% for females born in 2022, but the average rate of increase since 2010 has been relatively low at +.09% per year. Guernsey heifers born in 2022 average 7.23% inbreeding and the average change since 2010 has been similar at +.10% per year. For Milking Shorthorn, heifers born in 2022 average 2.39% inbreeding based on available pedigree data for the breed and the rate of increase has been low at +.07% per year for heifers born since 2010.

Below is a graph showing the inbreeding trend for the four largest dairy breeds based on registered females born in Canada since 1970 as well as a specific graph for the Holstein population alone. For further information, please feel free to contact Lactanet Canada staff.

Production Records Update

New information has been added to production records on Lactanet's animal database and Brown Swiss's Animal Inquiry to reflect new production source information as of January 1st, 2023 from Lactanet. Alongside existing data like calving date, days in milk (DIM), production yields, percentages, BCA values, and deviations, two new sets of information are now included on Animal Inquiry Screens.

Service Level Identification:

A new code has been introduced in lactation records to distinguish between herds enrolled in two different milk recording service levels:

P: "Publishable" for herds where lactation records have traditionally been publicly available.

M: "Management" for herds where lactation records were historically considered non-publishable and only accessible to the herd owner.

Source of Fat and Protein Data

On animal's Brown Swiss Animal Inquiry screen under "Additional Details", the section 'Comp Source' has been added. This label will indicate the source of Fat and Protein Components for each lactation.

Lactanet Lactation

CANADIAN
**Brown Swiss
& Braunvieh**
ASSOCIATION

THE BELL | FALL-WINTER 2023

Thank you Canadian Brown Swiss & Braunvieh members for your continued support to the breed.
If you would like to have your farm profiled in our newsletter or if you have any pictures we can use for publications send them to BrownSwiss@holstein.ca
